

FLOOR COATING

Epoxy floor coatings are commonly used for commercial and industrial. Epoxy coatings are normally applied over concrete surfaces to provide a high-performance, smooth, and durable surface that can last long time and withstand heavy loads. Many industrial sites, warehouses, and commercial buildings rely on epoxy floors to maintain clean and safe conditions for workers, equipment, and inventory.

Falco Epoxy Floor Paint "SF"

Based on pure epoxy two pack high performance self-leveling solvent free 100 % solid content product. Designed to resist aggressive chemicals, water, mineral oils, most of diluted acids and alkalis. It provides highly adhesion, a hard impact and abrasion resistance with an excellent coating for floors. Anti-slip aggregates to be applied when heavy tracks are expected.

Paint system

Falco epoxy sealer – one coat Or Falco epoxy sealer solvent free – one coat Falco Epoxy Floor Paint "Solvent Free" one or two coats " depend on thickness requirement"

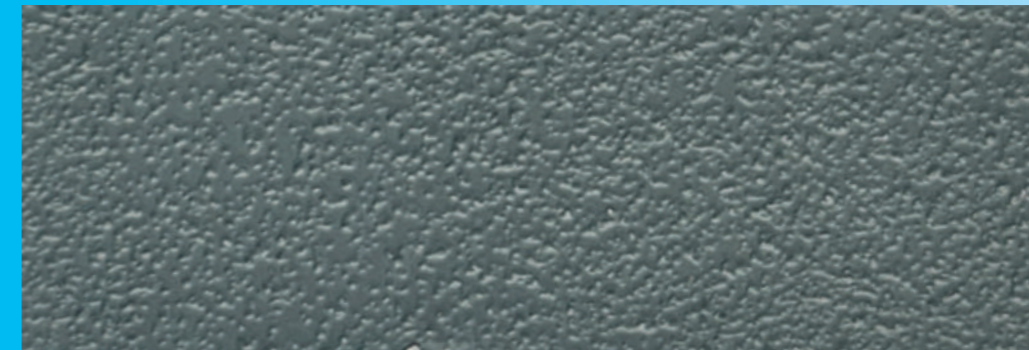

Features

- Tensile strength
- Adhesion Power
- Low VOC
- Resistance to mold growth
- Water Resistance
- Flexural strength
- Fire Resistance
- Abrasion Resistance
- Alkali Resistance

Falco Guard Concrete Floor Coating

Based on pure epoxy two pack high performance 55% solid content product. Designed to resist aggressive chemicals, water, mineral oils, most of diluted acids and alkalis. It provides a hard impact and abrasion resistance with an excellent coating for floors. Aggregates to be spread upon request to provide Anti-slip surfaces finish. It is produced with two grades matt and gloss finish.

Paint system

Falco epoxy sealer– one coat
Falco Guard Concrete Floor Coating- two coat

Features

- Low VOC
- Chemical Resistance
- Flexural strength
- Abrasion Resistance
- Compressive strength
- Water Resistance

Falco Polyurethane Floor Coating

Based on Polyurethane two pack high solid contain 63% and high performance product. This product offers excellent gloss and color retention, durable and highly chemical, water, mechanical, UV & dust resistance, flexible coat.

Paint system

Falco epoxy sealer– one coat
Falco Polyurethane Floor Coating – two coat

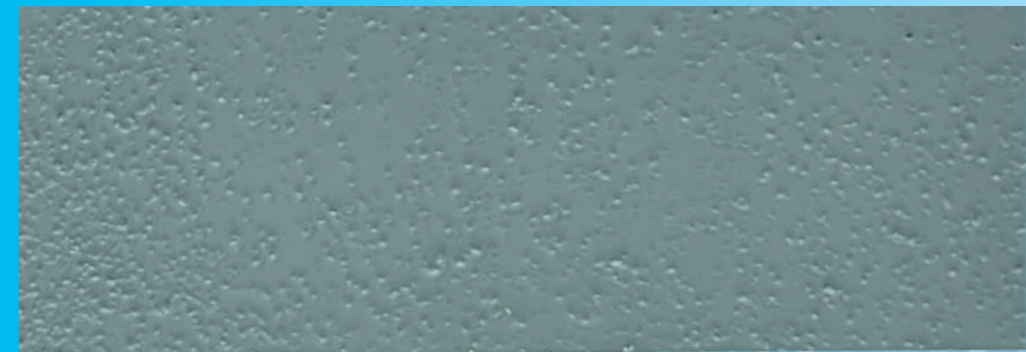

Features

- Water Resistance
- Abrasion Resistance
- Tear Strength
- Tensile strength

Falco Thermo Plastic Acrylic Floor Paint

Is based on a Thermoplastic Acrylic Resin solvent based product. It's formulated to give high protection on the substrate against water, normal solvents, oils, and petroleum products. Aggregates could be applied to the paint to give a heavy duty, Anti-slip and cleanable flooring.

Flooring Features

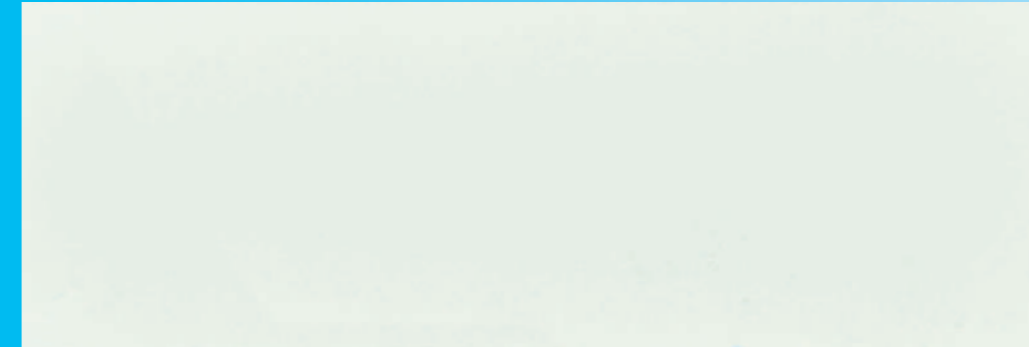

- Adhesion Power
- UV Resistance
- Low VOC
- Metal Free

Falco Road Marking

Is a based on special alkyd resin and chlorinated rubber blended with rich pigments having good color retention . It has excellent durability, flexibility and quick drying, It is highly water resistant, non bleeding on asphalt and unaffected by gasoline, oil etc. It has good mechanical and abrasion resistance.

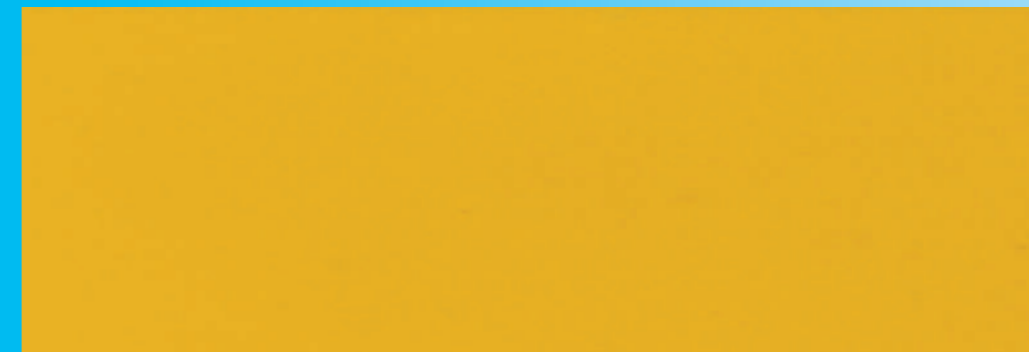

Flooring Features

- Adhesion Power
- UV Resistance
- Low VOC
- Metal Free
